Green Light for Daily *Wellness*

Ingredient-Driven K-Wellness
for Global Markets

Green-D Care Co., Ltd.

Product Development · Brand · Sales · Export

Wellness Food & Health Functional Food · Republic of Korea

We develop products from *ingredient to market*.

GREEN-D is a product-driven K-Wellness company – not simply a trading or distribution business.

Founded in September 2022 and incorporated in January 2026, the company plans, formulates and brands every product in-house, then takes it to market through domestic retail and export partners.

COMPANY	Green-D Care Co., Ltd.
BRAND	GREEN-D
FOUNDED	September 2022 · incorporated January 2026
BASED IN	Republic of Korea
CATEGORIES	Wellness Food & Health Functional Food

IN-HOUSE SYSTEM

GREEN-D Product Development Flow

Six stages, all managed by the company

- 01 Product Planning
- 02 Ingredient Review
- 03 Formula Design
- 04 Manufacturing Alignment
- 05 Production & Quality
- 06 Sales & Market Feedback

Only what our own family would take *every day*.

That single sentence is the founding standard of GREEN-D — and it translates into three principles that decide whether a product is approved or rejected.

01

Honest Ingredients

Country of origin, the specialist maker behind it and the grade of the raw material are all reviewed before a formula begins.

02

Transparent Process

Planning, formulation, manufacturing and packaging are directed in-house, so every decision can be explained to a partner.

03

Dependable Quality

Clean-label direction, minimal unnecessary additives and documented control at HACCP / GMP certified production sites.

Premium is not a number. It is a *sum of decisions*.

GREEN-D does not plan products by raising nutrient figures alone. Every formula is judged across six decisions — and a product is only approved when all six hold together.

Beyond high dosage — a reason for the buyer to choose GREEN-D, designed into every single product.

DOMESTIC RECOGNITION

Validated in the home market first

Recognized by *Korean consumers*.

Korea Consumer Awards — **Health Functional Food** category,
three consecutive years (2024 · 2025 · 2026).

2024 · 2025 · 2026

2024

Korea Consumer Awards ceremony

2025

Second consecutive recognition

2026

Third consecutive recognition

- A brand consumers trust, verified by award
- Three years running in health functional food
- Recognized for quality, chosen for sincerity

Korea Consumer Awards (대한민국 소비자대상), Health Functional Food category — conferred in the Republic of Korea.

GLOBAL MARKET TRACTION

MARKET PROOF & EXPORT READINESS

On the floor, and ready on paper

We have stood at the booth – and we can *ship after it*.

Liposomal Vitamin C Max on the SaSa × KOTRA K-Beauty display, Hong Kong

GREEN-D booth in the Korea Pavilion · supported by KOTRA and ITP programmes.

EXPORT READINESS

What is already in place

- ✓ **Export experience** – shipments already completed to overseas buyers
- ✓ **Retail-ready packaging** – finished outer cartons, not bulk only
- ✓ **Certified production** – HACCP / GMP certified manufacturing sites
- ✓ **Document support** – specification and ingredient documents per SKU
- ✓ **Exhibition track record** – Japan and Vietnam trade shows attended

Label content and functional wording are aligned per destination.

Regulatory review required by target market.

PRODUCT PORTFOLIO

Four products, four clear reasons to stock

Every product names its *origin*.

01 GENERAL FOOD

Liposomal Vitamin C Max

UK · liposomal vitamin C
500 mg per stick
Powder stick · 2 g × 30
Sugar-free formula

02 GENERAL FOOD

Brewer's Yeast Biotin 1200 Max

Germany · LEIBER yeast 54%
Biotin 360 µg · 1,200% NRV
Tablet · 600 mg × 60
DSM Quali®-Biotin, France

03 GENERAL FOOD

Chondroitin 1800 Max

USA · shark cartilage
1,800 mg per daily dose
Tablet · 1,000 mg × 60
Complex 90% formulation

04 HEALTH FUNCTIONAL FOOD

Phosphatidylserine Brain Max

USA · UNIAREA LLC
PS 300 mg per day
Powder stick · 2 g × 30
Non-GMO soy derived

Three products are classified as general food and one as health functional food in Korea. **Regulatory review required by target market.**

01

PRODUCT 01 / DAILY WELLNESS

GENERAL FOOD

GREEN-D Liposomal Vitamin C Max

A premium powder stick built around UK-origin liposomal vitamin C, formulated together with vitamin B2 and zinc.

CORE INGREDIENT	Liposoma Vitamin C
ORIGIN / MAKER	United Kingdom · premium DSM vitamin C
SPECIFICATION	Liposomal vitamin C 500 mg per stick
CO-FORMULATION	Vitamin B2 7 mg (500% NRV) · Zinc 8.5 mg (100% NRV)
FORMAT	Powder stick, 2 g · sugar-free

WHY BUYERS PICK IT UP

- UK-origin liposomal source, named maker
- Sugar-free, clean-label oriented
- Initial order already shipped to India
- Stick format fits modern retail shelves

Classified as general food in Korea. No health-functional claim is made. Regulatory review required by target market.

RETAIL UNIT

Powder Stick · 2 g × 30 sticks (60 g)
1 stick per day · Sugar-free formula

PRODUCT PORTFOLIO · 09

GREEN-D Brewer's Yeast Biotin 1200 Max

German LEIBER brewer's yeast and French DSM Quali®-Biotin, built into a multi-ingredient tablet rather than a single-ingredient one.

RETAIL UNIT

Tablet · 600 mg × 60 tablets (36 g)
Bottle and outer carton supplied

CORE INGREDIENT	Brewer's yeast · 54% of formula
ORIGIN / MAKER	Germany · LEIBER France · DSM
SPECIFICATION	Biotin 360 µg · 1,200% NRV · Quali®-Biotin
CO-FORMULATION	Pantothenic acid 5.5 mg · zinc · selenium · L-cystine · B-group
FORMAT	Tablet, 600 mg , 1 tablet daily

WHY BUYERS PICK IT UP

- Two named European ingredient makers
- Multi-nutrient, not yeast alone
- Inner-beauty shelf fit in Asian retail
- Compact 60-tablet bottle for travel retail

03

RETAIL UNIT

Tablet · 1,000 mg × 60 tablets (60 g)
2 tablets per day

PRODUCT 03 / ACTIVE LIVING

GENERAL FOOD

GREEN-D Chondroitin 1800 Max

US-origin shark cartilage chondroitin at the centre, with four related sub-ingredients selected around the same concept.

CORE INGREDIENT	Shark cartilage extract powder · 97% grade
ORIGIN	United States of America
SPECIFICATION	Chondroitin complex 1,800 mg / day · 90% of formula
FORMAT	Tablet, 1,000 mg · 2 tablets daily

CO-FORMULATION · PER DAILY DOSE

Boswellia extract 20 mg	Green-lipped mussel 20 mg	Turmeric extract 20 mg	N-acetyl glucosamine 1 mg
-----------------------------------	-------------------------------------	----------------------------------	-------------------------------------

GREEN-D Phosphatidylserine Brain Max

Non-GMO US phosphatidylserine with German minerals and vitamins, carried in a Korean roasted-grain base – the only registered health functional food in the line-up.

CORE INGREDIENT	Phosphatidylserine 300 mg / day · soy lecithin
ORIGIN / MAKER	United States · UNIAREA LLC · Non-GMO
SPECIFICATION	Approx. 70% PS grade raw material
CO-FORMULATION	Germany · zinc 10.64 mg · B6 1.95 mg · B1 1.56 mg

FUNCTIONALITY RECOGNISED IN KOREA (MFDS)

Phosphatidylserine · may help improve cognitive ability reduced by ageing · may help maintain skin health from UV damage · may help skin moisturising

Zinc · normal immune function & cell division | B6 · protein metabolism | B1 · energy metabolism

Claims shown are those recognised in Korea only and are not automatically permitted elsewhere. Regulatory review required by target market.

RETAIL UNIT

Powder Stick · 2 g × 30 sticks (60 g)
1 stick per day · roasted grain taste

GLOBAL INGREDIENT SOURCING

Where each core ingredient comes from

Five countries. *Named makers.*

UNITED STATES
Phosphatidylserine · **UNIAREA LLC**
Shark cartilage extract · 97% grade

UNITED KINGDOM
Liposomal vitamin C · **DSM**

GERMANY
Brewer's yeast · **LEIBER**
Zinc · vitamin B6 · vitamin B1

FRANCE
Quali®-Biotin · **DSM**

KOREA
Formulation · production · packaging
Korean brown rice & grain base

SOURCING REVIEW CRITERIA

Country of origin, ingredient manufacturer, material grade, quality documentation and supply stability are reviewed together – never origin alone.

TRACEABILITY

Every core ingredient in this catalogue can be named down to its country and its specialist maker – which is what an importer needs for registration.

Six gates, and a formula only passes *all six*.

CLEAN LABEL DIRECTION

Synthetic colourings, flavourings, sweeteners and unnecessary excipients are kept to a minimum across the line-up.

Ingredient count is not increased for its own sake — each sub-ingredient has to relate to the core concept.

CERTIFIED PRODUCTION

HACCP

GMP

Products are made at certified manufacturing sites in Korea, with specification and ingredient documents available per SKU for import registration.

LET'S BUILD THE MARKET TOGETHER

Green Light for Daily *Wellness*

Better products. Clearer specifications. Stronger partnerships.
